As reported by Sub Divisional Engineer Provincial Sub Division No. III PWD B&R Br., Panipat there exist 3 No. of Building blocks having year of construction 2005, 2009 & 2019. The two Nos. of building blocks constructed in year 2009 and 2019 seems structurally safe and two storeyed building block constructed in year 2005 needs some cement repairs for structural safety of the building.

You are directed to get the building block constructed in year 2005 repaired at the earliest. So that building safety certificate can be issued for the two-storeyed building block also.
